ClickSafety Instructor Qualifications

BlueVolt® and ClickSafety, an authorized online OSHA outreach instructor, offer OSHA certification and other safety training courses for a wide variety of industries at BlueVolt University.

Founded in 1999, ClickSafety, Inc., an ATI company, was the first OSHA Outreach Instructor to provide both the 10 hour and 30 hour OSHA safety training courses online. Today, ClickSafety employs an in-house team of Certified Safety Professionals (CSP), Certified Industrial Hygienists (CIH) and other industry professionals to create and maintain the most comprehensive and up-to-date online safety training program available. Headquartered in Alamo, California, ClickSafety offers over 270 interactive training courses to help organizations promote and foster a strong safety culture.
